THE BRAND CLARITY AUDIT

A strategic diagnosis for growing brands that know they have something valuable — but need greater clarity around what they should be known for.

**FIND THE CLARITY.
SHARPEN THE POSITION.
MAKE THE BRAND MEAN MORE.**

FOUNDING CLIENT OFFER

₦75,000

First 3 engagements

Standard price after founding engagements: ₦100,000

THE PROBLEM

Many growing brands don't have a lack-of-content problem. They have a clarity problem.

They are posting consistently, launching products, running campaigns and telling their story — but the market may still struggle to answer a simple question: What should I remember about this brand?

The Brand Clarity Audit looks at the brand from the outside in. It identifies what is already working, where the message becomes diluted, what the brand could credibly own, and what should happen next.

THE CLEAR METHOD

C	CONTEXT Understand the market, category and competitive environment.
L	LISTENER Clarify who the brand needs to matter to and what matters to them.
E	EDGE Identify credible sources of distinction and potential ownership.
A	ASSERTION Define what the brand should be known for.
R	REINFORCEMENT Check whether content, messaging and touchpoints strengthen the same idea.

WHAT I REVIEW

01 — POSITIONING

What does the brand currently appear to stand for?

02 — AUDIENCE

Who is the brand speaking to, and is the value clear to them?

03 — DIFFERENTIATION

Where does the brand blend into the category, and where can it stand apart?

04 — MESSAGING

Is the value proposition clear, distinctive and consistent?

05 — CONTENT

What does the brand repeatedly communicate, and what is missing?

06 — BRAND EXPERIENCE

Do key public-facing touchpoints reinforce the same story?

07 — OPPORTUNITY

What should the brand prioritise next?

WHAT YOU RECEIVE

- A written Brand Clarity Report tailored to your business.
- An outside-in assessment of your current brand communication.
- Clear strengths and clarity gaps.
- Competitive and differentiation observations.
- Positioning and messaging recommendations.
- Content opportunities connected to the strategic position.
- A prioritised action roadmap.
- A 60-minute strategic walkthrough to discuss the findings.

HOW IT WORKS

01 — DISCOVERY

You complete a short questionnaire and provide the agreed brand materials and links.

02 — AUDIT

I review the brand, relevant touchpoints, public communication and competitive context.

03 — STRATEGY

I develop the Brand Clarity Report and prioritised recommendations.

04 — WALKTHROUGH

We meet for 60 minutes to go through the findings and answer your questions.

05 — NEXT MOVE

You leave with a clear view of what to address first and why.

WHO IT IS FOR

The audit is designed for founders, SMEs, startups and growing brands that have traction but feel that their positioning, messaging or content could be sharper. It is particularly useful before a rebrand, new campaign, product expansion or major growth push.

WHAT THIS IS NOT

This is not a logo redesign, social media management package or generic marketing report. The goal is strategic clarity first. Design, campaign execution and ongoing content strategy can be considered separately where there is a fit.

INVESTMENT

FOUNDING CLIENT PRICE

₦75,000

Available for the first 3 engagements

Includes the full audit, report and 60-minute strategic walkthrough.

STANDARD PRICE

₦100,000 per audit after the founding-client allocation.

TURNAROUND

5–7 working days from receipt of the completed questionnaire and required materials.

PAYMENT

50% is required to commence the engagement, with the balance due before the strategic walkthrough.

AFTER THE AUDIT

If the audit identifies a larger opportunity, the next step may be a focused Positioning & Messaging Strategy or an ongoing Brand & Content Strategy engagement. There is no obligation to continue.

READY TO FIND OUT WHAT YOUR BRAND SHOULD BE KNOWN FOR?
